

# April/May NEWSLETTER

## What we're Learning

### Math

- Grade 2's are finishing up with addition to 100 and will begin subtraction to 100 after. Next we will work on measurement.
- Grade 3's with Mr. Coates and Mrs. Boyko are working on multiplication and then division.

### Science/Social Studies

- Grade 2's are focusing on motion and position with inquiry projects about sports/

movement activities.

- Grade 3's are finishing up with structures and traditional First Nations' structures/land use and will next work on community decision making and other similar topics.

### Writing/Word Work

- Letter writing, descriptive writing, and stories

### Reader's Workshop

- Visualizing with fiction, which will be followed with poetry.

### Health

- We are finishing inquiry projects about the immune system.
- Next, Gr. 2's will work on inquiry projects about illness and diseases and gr. 3's will work on healthy and harmful substances (i.e. "safe" medicines and "unsafe medicines", prescriptions, etc.).

## Please Note...

-As the weather warms up, please make sure students have a change of socks and clothing for potential weather (this time of year it may rain with short notice and students will still be outside unless rain is very heavy).
